STÖLZLE GLASS GROUP

PRIVATE COLLECTION

www.stoelzle.com

For the touch of luxury in glass packaging

Stölzle has 6 production sites in Europe and 3 in-house decoration facilities in its plants in France, Great Britain and Poland, which help our customers to save supply chain costs and make us more flexible in fulfilling the customers' demands. In addition

to familiar processes such as acid etching, screen printing, lacquering, hot stamping, transfers, gluing or sleeving, a range of innovative decoration techniques including metallisation, laser cutting, embossed lettering or accessory application are offered.
