SIMILIA HOMEOPATHIC PELLETS DISPENSER

THE FIRST SINGLE-DOSE DISPENSER
FOR GLASS BOTTLES

SUSTAINABLE
AND
CONVENIENT

ADVANTAGES AT A GLANCE

Similia, the homeopathic pellets dispenser, is a unique dosing adapter suitable for standard Euro dropper bottles. It enables precise and hygienic single dosing of pellets directly into the attached dosing cup.

- Convenient single-handed application
 - Individual dosing
 - Hygienic intake with the enclosed dosage cap
- Refill protection (tamper evidence)
 - Clean room production
- Suitable for standard GL18 dropper bottles (5 ml – 10 ml, Ø 24)
- Available for homeopathic pellets in various sizes (currently size 3)

DOSAGE POSSIBILITIES

Over the years, homeopathy as a complementary medicine has grown in popularity. However, until now, reliable dosing has been limited. Say hello to Similia – the incredible new dispensing system. Similia allows for precise and hygienic single-dosing directly into the attached dosing cup without the risk of contamination.

1

Dispenser and
standard GL 18
dropper bottle.

**CLEAN,
SIMPLE AND
PRECISE!**

2

Place the
dispenser on the
head of the bottle.

HOW IT WORKS

- Dispenses medicinal pellets one-by-one with a simple press
- Hygienic and direct dispensing into the dosing cup avoids contamination
 - Single-handed operation
- Reliable – no pellets trapped in the system

SAFE AND CLEAN

- Cohesive system which protects against refilling and pollution as well as contamination through dust or moisture
 - Once applied on the bottle, it can no longer be removed unnoticed (tamper evident)
- All parts assembled in clean room to meet highest standards of hygiene
 - Light and break-proof

3

Simple press mechanism
which allows one-by-
one dispensing.
